

Special Issue on

“Anesthesia & Postoperative Effects”

Aims and Scope

[SOJ Anesthesiology & Pain Management](#) is a peer reviewed open access journal, exclusively designed for the international Scientific community that addresses ongoing research on Anesthesia & Pain management, which aims to provide a unique platform for publishing high quality research work. The journal aims to frame up an outstanding special issue on Anesthesia & Postoperative Effects.

Anesthesia is a fleeting state consisting of oblivion, loss of memory, short of pain, and muscle relaxation. Most side effects of anesthesia are negligible in people who are healthy and they can be easily managed by the anesthesia care team. These changes are sometimes severe enough to change the personality of the affected person, or to obstruct with their ability to perform usual activities. These changes may even be so severe that some elderly people actually become demented after undergoing an operation.

The objective of the special issue is to integrate the growing international community of researchers working on the topics like Postoperative nausea and Vomiting, Sore throat and Hoarseness, Damage to Teeth, Lips or Tongue, Shivering or Chills and Anesthetic Headache.

Topics

This special issue deals with the topics of the following but not limited to

- Postoperative Nausea and Vomiting
- Sore Throat and Hoarseness
- Damage to Teeth, Lips or Tongue,
- Shivering/Chills
- Anesthetic Headache.
- Dizziness and Feeling Faint
- Bruising and Soreness
- Confusion or Memory Loss
- Chest Infection
- Breathing Difficulties
- Postoperative Cognitive
- Dysfunction
- Memory Problems after Operation
- Postoperative Pain

Neuroendocrine Surgical Stress
Cardiac Morbidity
Perioperative Venous Stasis
Postoperative Ileum
Postoperative Delirium
Cerebral State Index
Apfel Scoring System
Motion Sickness
Nonpharmacologic Therapies Effect
Scopolamine

Submissions

Authors are invited to submit articles which address the progress and current standing of Anesthesia & Postoperative Effects. Please refer [Author guidelines](#) before submission.

Author benefits for these submissions will be found at [Special issue page](#). Use the Online [Manuscript Tracking System](#) to submit your papers or e-mail it to anesthesia@symbiosisonline.org

Submissions are open from January 26, 2015
