Special Issue on

## “Breast Cancer: Screening and New Interventions in Treatment”

### Aims and Scope

[Cancer Science & Research: Open Access](#) (CSROA) is an Open Access publication that enlightens and empowers cancer research community by providing an insight on breakthrough discoveries in basic and clinical cancer research. CSROA is an International peer-reviewed journal which accepts original submissions, reviews, surgeon's reports, rapid communications, editorials, case reports and letters encasing the etiology, pathophysiology and treatment of cancer.

Breast cancer is the world's second most common cancer. Its early diagnosis through screening techniques helps in understanding the disease process. Constant assessing of researchers along with the improved surgical, radiotherapy techniques and vaccination added new types of targeted therapy.

We are a step ahead to bring the current “**Breast Cancer: Screening and New Interventions in Treatment**” exploration to you and others in an easy accessible way by your participation and co-operation.
