Special Issue on

“Prostate Cancer: Early Detection and Therapeutics”

Aims and Scope

[Cancer Science & Research: Open Access](#) (CSROA) is an Open Access Publication that enlightens and empowers the cancer research community by providing an insight on breakthrough discoveries in basic and clinical cancer research. CSROA is an international Peer-Reviewed Journal for original submissions, reviews, surgeon's reports, rapid communications, editorials, case reports and letters encasing the etiology, pathophysiology and treatment of cancer.

Prostate is a walnut shaped gland which produces and nourishes sperm. Prostate cancer is one of the most common types of cancer in men. Early Screening and treatment is recommended to reduce the mortality rate. Constant accessing of researchers with improved surgical, radiotherapy techniques and vaccinations added new types of targeted therapy.

The main aim of the Special Issue entitled “**Prostate Cancer: Early Detection and Therapeutics**” is to bring awareness among men, the early detection and novel therapeutics of Prostate cancer in an easily accessible way.
