

Journal of Clinical Trials in Cardiology

Special Issue on “Myocardial Infarction”

Aims and Scope

[Journal of Clinical Trials in Cardiology](#) is a peer reviewed open access journal, exclusively designed for the international Scientific community that addresses ongoing research on Clinical Trials in Cardiology, which aims to provide a unique platform for publishing high quality research work. The journal aims to frame up an outstanding special issue on Myocardial Infarction.

Myocardial infarction commonly called as a heart attack, happen when blood stop flowing properly to a part of the heart, and the heart muscle is indignant because it is not getting sufficient oxygen. This is because of the coronary arteries that supplies blood to the heart develops a blockage due to an unstable buildup of white blood cells, cholesterol and fat. The most common complications of a heart attack are heart failure and ventricular fibrillation.

The objective of the special issue is to integrate the growing international community of researchers working on the topics like Heart Attack, Acute Coronary Syndrome, Cardiac Arrest, Coronary Infarction and Cardiopulmonary Arrest.

Topics

This special issue deals with the topics of the following but not limited to

- Heart Attack
- Acute Coronary syndrome
- Cardiac Arrest
- Coronary Infarction
- Cardio Pulmonary Arrest
