

Clinical Research in Dermatology: Open Access

Special Issue on

“Psoriasis Research & Clinical Practices”

[Clinical Research in Dermatology: Open Access](#) (CRDOA) is an international Open Access Publication dealing with the skin, its diseases and their treatments. CRDOA provides a medium for projecting interesting and intriguing research in dermatology. The articles feature studies like dermato clinical investigations, cosmetology, skin infections & diseases, skin cancer, skin grafts, allergic reactions and immunological responses.

It is an auto immune disease affecting the skin. It is a non – epidemic disease with red, scaly patches found in the scalp, around the ears, elbows or any parts of the body. Patients with psoriasis have faster skin cell production resulting in rapid buildup of cells on the skin surface producing red, flaky, scaly patches, which are then shed. In clinical practices, the psoriasis disease activity, severity and its effect on patients are assessed with response to the treatment. Several instruments are developed to assess the severity of skin lesions.

Our Journal of Clinical Research in Dermatology invites papers from throughout the global community of researchers covering many topics but are not limited to: drug outcome in Psoriasis, severity of psoriasis, Corneal Biomechanical Properties, ciclosporin in psoriasis, Phototherapy, Psoriasis Severity and Outcomes which paves a way for publishing outcomes of recent research trends and investigations in Psoriasis Research & Clinical Practices

As we are a step ahead to bring the *Current research on Psoriasis Research & Clinical Practices* exploration to you and every other in an easy accessible way by your participation and cooperation.

Submissions

All kinds of papers are invited. Please refer [Author guidelines](#) before submission. Author benefits for these submissions will be found at [special issue page](#).

Use the online [Manuscript Tracking System](#) to submit your papers or e-mail it to dermatology@symbiosisonline.org

Submissions are open from January 26, 2015

Editorial Board Members

James Thornton

University of Texas, USA

Massimo Milani

University of Milan, Italy

Toshiyuki Yamamoto

Fukushima Medical University, Japan

Adam Friedman

Albert Einstein College of Medicine, USA
