

Clinical Research in Dermatology: Open Access

Special Issue on

“Hair and Scalp Disorders & Research”

[Clinical Research in Dermatology: Open Access](#) (CRDOA) is an international Open Access Publication dealing with the skin, its diseases and their treatments. CRDOA provides a medium for projecting interesting and intriguing research in dermatology. The articles feature studies like dermato clinical investigations, cosmetology, skin infections & diseases, skin cancer, skin grafts, allergic reactions and immunological responses.

Hair loss is the common system which affects both men and women of all the ages. Numerous factors are involved in hair disorders. Genetic factors, diet, drug intake, and deformity in hair shaft might cause hair loss. Disorders of scalp include excessive oiliness, exfoliating, infection and itching. Ample area of research, focusing on the cause and the treatment for all forms of hair disorders are currently under study.

Our Journal of Clinical Research in Dermatology invites papers from throughout the global community of researchers covering many topics but are not limited to: Dandruff and Seborrheic Dermatitis, Tinea Capitis, Psoriasis, videodermoscopy, surgical placement of follicle, Alopecia areata, hair transplants, Neutron Activation Analysis, hypotrichosis simplex of scalp, Anaphylactic reaction to hair glue, Scalp Hair Follicles Utility which paves a way for publishing outcomes of recent research trends and investigations in Hair and Scalp Disorders & Research.

As we are a step ahead to bring the *Current research on Hair and Scalp Disorders & Research* exploration to you and every other in an easy accessible way by your participation and cooperation.
