

Special Issue on

“Diabetic Nephropathy”

Aim and Scope

[Journal of Endocrinology and Diabetes](#) is an online Open Access Journal whose aim is to publish Scholarly Articles featuring current research in endocrinology and diabetes. The articles cover insulin dependent diabetes, insulin independent diabetes, insulin metabolism. It also enlists latest research conducted in the field of various diabetes related complications like diabetic nephropathy, diabetic retinopathy, and diabetic neuropathy.

Diabetic Nephropathy is a leading cause of kidney diseases characterized by renal morphological and functional alterations, a pressing issue on which research is being emphasized to overcome the diabetes induced kidney damage. Journal of Endocrinology and Diabetes welcomes papers from all through worldwide group of specialists covering recent advances in treatment for Diabetic Nephropathy and ongoing research.

As we are in a step ahead to bring-out advancements in the treatment of Diabetes induced kidney damage and therapeutic approaches, every other in an easy accessible way by your participation and co-operation.
