

# Journal of Endocrinology and Diabetes

Special Issue on  
“Diabetic Retinopathy”

## Aim and Scope

[Journal of Endocrinology and Diabetes](#) is an online Open Access Journal whose aim is to publish Scholarly Articles featuring current research in endocrinology and diabetes. The articles cover insulin dependent diabetes, insulin independent diabetes, insulin metabolism. It also enlists latest research conducted in the field of various diabetes related complications like diabetic nephropathy, diabetic retinopathy, and diabetic neuropathy.

**Diabetic Retinopathy** is an ocular manifestation of the disease affecting nearly 90% of the patients suffering from Diabetes; causing damage to the retina, and blood vessels with a propensity to permanent blindness. *Symbiosis Open Journal of Endocrinology and Diabetes* welcomes papers from all through worldwide group of specialists covering recent advances in treatment for Diabetic retinopathy and ongoing research.

With this initiative we intend to bring-out advancements in the treatment of **Diabetic retinopathy and therapeutic approaches**.

## Topics

The special Issue covers wide range of topics and some of them are listed below:

- Non-Proliferative Diabetic Retinopathy
- Proliferative Diabetic Retinopathy
- Retinal Photography in Diabetic Retinopathy
- Fluorescein Angiography in Diabetic Retinopathy
- Laser Treatment in Diabetic Retinopathy
- Diagnosis Of Diabetic Retinopathy
- Macular Edema in Diabetic Retinopathy
- Mechanisms in Diabetic Retinopathy
- Vitrectomy in Diabetic Retinopathy
- Retinal Hemorrhages in Diabetic Retinopathy
- Screening for Diabetic Retinopathy
- Microvascular Complications in Diabetic Retinopathy
- Hypertension in Diabetic Retinopathy
- Clinical Studies in Diabetic Retinopathy
- Pharmacology of Diabetic Retinopathy
- Animal Models of Diabetic Retinopathy
- Diabetic Retinopathy Progression

Diabetic Retinopathy Classification  
Diabetic Retinopathy Pregnancy  
Diabetic Retinopathy Inflammation  
Diabetic Retinopathy Prevalence  
Environmental Factors in Diabetic Retinopathy  
Genetic Studies of Diabetic Retinopathy  
Complications in Diabetic Retinopathy  
Epidemiology of Diabetic Retinopathy  
Lipid Control in Diabetic Retinopathy  
Glaucoma in Diabetic Retinopathy  
Cataract in Diabetic Retinopathy  
Prevention Of Diabetic Retinopathy  
Microaneurysms in Diabetic Retinopathy  
Pathophysiology Of Diabetic Retinopathy

## Submissions

All kinds of papers are invited. Please refer [Author guidelines](#) before submission. Author benefits for these submissions will be found at [special issue page](#).

Please submit your manuscript by following the link, [Submit manuscript](#) or e-mail it to [jed@symbiosisonline.org](mailto:jed@symbiosisonline.org)

**Submissions are open from January 26, 2015**

## Editorial Board Members

### **Masayoshi Yamaguchi**

Emory University School of Medicine, USA

### **Tetsuo Nishikawa**

Yokohama Rosai Hospital, Japan

### **Anthony C. Hackney**

University of North Carolina, USA

### **Chris E. Stout**

Centre for Global Initiatives, USA

## Editorial Contact

### **Vanessa Holmes**
