

# Journal of Endocrinology and Diabetes

Special Issue on  
**“Diabetes: Metabolic Disorders”**

## Aim and Scope

[Journal of Endocrinology and Diabetes](#) is an online Open Access Journal whose aim is to publish Scholarly Articles featuring current research in endocrinology and diabetes. The articles cover insulin dependent diabetes, insulin independent diabetes, insulin metabolism. It also enlists latest research conducted in the field of various diabetes related complications like diabetic nephropathy, diabetic retinopathy, and diabetic neuropathy.

Diabetes is a cluster of medical condition, caused by abnormal variations in the hormonal and the cellular environment. The prevalence of this disease is involved in cardiovascular complications connected with kidney, eye, liver, nerve diseases, etc. In an approach to share your work related to such metabolic disorders with peers in the field of Diabetes: Metabolic disorders, *Symbiosis Open Journal of Endocrinology and Diabetes* welcomes papers from worldwide group of specialists; covering recent advances in diabetes and its complications, ongoing research.

With this initiative, we intend to bring-out **advancements in the treatment and prevention of diabetes & metabolic disorders**, and make them easily accessible by your participation and cooperation.

## Topics

The special Issue covers wide range of topics and some of them are listed below:

- Diabetes metabolic syndrome and obesity
- Diabetes and metabolic syndrome
- Metabolic syndrome and obesity therapy
- Diabetes metabolic memory
- Type 1 diabetes metabolic syndrome
- Pharmacology of diabetic metabolic disorders
- Pharmacotherapy of diabetic metabolic disorders
- Clinical studies on diabetic metabolic disorders
- Diabetes metabolic disorders views
- Complications in diabetes metabolic disorders
- Genetic studies in diabetes metabolic disorders
- Metabolic syndrome and cardiovascular risk
- Metabolic disorders and cardiovascular risk
- Metabolic and cardiovascular risk

Oxidative stress markers in diabetes metabolic disorders  
Heterogeneity in diabetic metabolic disorders  
Melatonin role in metabolic disorders  
Apoptosis in diabetic metabolic disorders  
HIV in diabetic metabolic disorders  
Smoking in diabetes  
Matrix metalloproteinases in diabetes  
Liver enzymes in diabetes  
Anthropometric studies in diabetic metabolic disorders  
Depression in metabolic disorders  
Insulin therapy in metabolic disorders  
Diabetes and hyperglycemia  
Pre-diabetes  
Insulin resistance  
Diabetes & abdominal fat  
Hyper/high fasting blood glucose  
Diabetes & high carbohydrate diet

## Submissions

All kinds of papers are invited. Please refer [Author guidelines](#) before submission. Author benefits for these submissions will be found at [special issue page](#).

Please submit your manuscript by following the link, [Submit manuscript](#) or e-mail it to [jed@symbiosisonline.org](mailto:jed@symbiosisonline.org)

**Submissions are open from January 26, 2015**

## Editorial Board Members

### **Masayoshi Yamaguchi**

Emory University School of Medicine, USA

### **Tetsuo Nishikawa**

Yokohama Rosai Hospital, Japan

### **Anthony C. Hackney**

University of North Carolina, USA

### **Chris E. Stout**

Centre for Global Initiatives, USA

## Editorial Contact
