

# Journal of Endocrinology and Diabetes

Special Issue on  
“Clinical Aspects of Diabetes”

## Aim and Scope

[Journal of Endocrinology and Diabetes](#) is an online Open Access Journal whose aim is to publish Scholarly Articles featuring current research in endocrinology and diabetes. The articles cover insulin dependent diabetes, insulin independent diabetes, insulin metabolism. It also enlists latest research conducted in the field of various diabetes related complications like diabetic nephropathy, diabetic retinopathy, and diabetic neuropathy.

Diabetes a globally concerned disease with its damaging effects is a burning problem for decades, on which huge research is being conducted to hold clues for treatment. In an approach to share your work related to such disorders with peers in the field of Diabetes and its clinical aspects, *Symbiosis Open Journal of Endocrinology and Diabetes* welcomes papers from worldwide group of specialists; covering recent advances in clinical diabetes, ongoing research.

With this initiative, we intend to bring-out **the clinical aspects and research advances in diabetes**, and make them easily accessible by your participation and cooperation.
