

# Journal of Endocrinology and Diabetes

Special Issue on

## **“Diabetic Foot”**

### **Aim and Scope**

[Journal of Endocrinology and Diabetes](#) is an online Open Access Journal whose aim is to publish Scholarly Articles featuring current research in endocrinology and diabetes. The articles cover insulin dependent diabetes, insulin independent diabetes, insulin metabolism. It also enlists latest research conducted in the field of various diabetes related complications like diabetic nephropathy, diabetic retinopathy, diabetic neuropathy, and diabetic foot.

**Diabetic Foot** is a pathological condition that results directly from Diabetes Mellitus, a pressing issue on which research is being emphasized to overcome diabetic complications. Journal of Endocrinology and Diabetes welcomes papers from all through worldwide group of specialists covering recent advances in treatment for Diabetic Foot and ongoing research.

As we are in a step ahead to bring-out advancements in the treatment of diabetic foot infections, every other in an easy accessible way by your participation and co-operation.
