

Aims and Scope

[Journal of Exercise, Sports & Orthopedics](#) is a peer reviewed open access journal, exclusively designed for the international Scientific community that addresses ongoing research on Exercise, Sports & Orthopedics, which aims to provide a unique platform for publishing high quality research work. The journal aims to frame up an outstanding special issue on **Physiotherapy & Rehabilitation**.

Physiotherapy is the treatment of disease, injury, or deformity by physical methods such as massage, heat treatment, and exercise rather than by drugs or surgery. It uses a variety of techniques to help your body move and function at its full potential.

To educate people on how to manage their health, to create awareness about non surgical treatment methods, JESO invites manuscripts to its special issue "Physiotherapy & Rehabilitation"

Topics

This special issue deals with the topics of the following but not limited to

- Rehabilitation Exercise
- Physiotherapy Techniques for Treatment
