

Special Issue on

“Inflammatory Bowel Disease”**Aim and Scope**

Journal of Gastroenterology, Pancreatology & Liver Disorders (JGPLD) is a peer reviewed open access journal, exclusively designed for the international Scientific community that addresses ongoing research on gastroenterology, which aims to provide a unique platform for publishing high quality research work. The journal aims to frame up an outstanding special issue on **“Inflammatory Bowel Disease”**.

Inflammatory bowel disease (IBD) is a group of inflammatory conditions of the colon and small intestine. Crohn's disease and ulcerative colitis are the principal types of inflammatory bowel disease. Crohn's disease can also affect the mouth, oesophagus, stomach and the anus whereas ulcerative colitis primarily affects the colon and the rectum. Collagenous (kuh-LAJ-uh-nus) colitis and lymphocytic colitis also are considered inflammatory bowel diseases but are usually regarded separately from classic inflammatory bowel disease.

Topics

The special Issue converges wide range of topics and some of them are listed below:

- **Collagenous colitis**
- **Lymphocytic colitis**
- **Diversion colitis**
- **Behçet's disease**
- **Indeterminate colitis**
- **Diagnosis:**
 - Tests for anemia or infection
 - Fecal occult blood test.
 - Endoscopic procedures
 - Colonoscopy
 - Flexible sigmoidoscopy
 - Upper endoscopy
 - Capsule endoscopy
 - Double-balloon endoscopy
- **Imaging procedures**
 - X-ray
