

**“Gastrointestinal Endoscopy – Imaging and Diagnosis instrumentation ”****Aim and Scope**

**Journal of Gastroenterology, Pancreatology & Liver Disorders ( JGPLD )** is a peer reviewed open access journal, exclusively designed for the international Scientific community that addresses ongoing research on gastroenterology, which aims to provide a unique platform for publishing high quality research work. The journal aims to frame up an outstanding special issue on Human Nutrition, Gut Bacteria and Fatty Liver Disease.

Gastrointestinal Endoscopy is a diagnostic endoscopic procedure that visualizes the upper part of the gastrointestinal tract up to the duodenum. It is considered a minimally invasive procedure since it does not require an incision into one of the major body cavities and does not require any significant recovery after the procedure

There are several types of endoscopic procedures used to identify disorders in the gastrointestinal tract. The basic endoscopic procedures available include: Upper endoscopy, Colonoscopy, Push enteroscopy, Double balloon endoscopy.

As we are in a step ahead to bring the Current **“Gastrointestinal Endoscopy – Imaging and Diagnosis instrumentation”** exploration to you, every other in an easy accessible way by your participation and co-operation.

**Topics**

The special Issue converges wide range of topics and some of them are listed below:

- **Capsule endoscopy**
- **Measuring endoscopy**
- **Imaging instrumentation and Novel advances in Gastroendoscopy**
  - Esophagogastroduodenoscopy - oesophagus, stomach and duodenum
  - Enteroscopy - small intestine
  - Colonoscopy, sigmoidoscopy - large intestine/colon
  - Magnification endoscopy
  - Ultrasound endoscope - endoscopic ultrasound (EUS)
  - Endoscopic retrograde cholangiopancreatography - bile duct
  - Endoscopy snare - polypectomy and endoscopic foreign body removal

- Rectoscopy - rectum
- Anoscopy - anus
- Proctoscopy
- PEG – Tube
- **Clinical effects and manifestations after endoscopic procedures**
- **Peroral Endoscopic Myotomy (POEM)**
- **Endoscopic Tattooing of Carcinomas**
  - Colorectal Carcinomas
- **Early detection of gastric cancers**
  - Endoscopic Submucosal Dissection
- **Detecting Malignant Progression by endoscopy**

### **Submissions**

All kinds of papers are invited. Please refer [Author guidelines](#) before submission. Author benefits for these submissions will be found at <http://symbiosisonlinepublishing.com/special-issues/>

Kindly submit your article at <http://www.symbiosisonlinepublishing.com/submitManuscript.php> Or submit it as an e-mail attachment to [gastro@symbiosisonline.org](mailto:gastro@symbiosisonline.org)

**Submissions are open from August 03, 2015**

### **Editorial Board Members**

#### **Sorin T Barbu**

Iuliu Hatieganu University of Medicine and Pharmacy, Romania

#### **Antonio Giorgio**

D. Cotugno Hospital, Italy

#### **Catherine M Pastor**

Geneva University Hospitals, Switzerland

#### **Atilla Ertan**

University of Texas Health Science Center , USA

#### **Editorial Contact**
