

SOJ Genetic Science

Special Issue on
“Genes & Medical Conditions”

[SOJ Genetic Science](#) is an Open Access Publication Scientific Journal that has dedicated itself for promoting genetic research and facilitating the application of this research in the fight against diseases. The journal encompasses genomic constitution, gene expression & regulation, heredity, genetic variation, gene mutations and genomic evolution etc. in all life forms

Medical genetics is a widely certified term in relation with genes and health to evaluate the hereditary disorders. The enormous beneficiary effects in the interchangeable concepts between genetics and genomics in health care decision is moving the practice of medicine towards advanced research. With this initiative, we intend to bring-out advancements in the treatment and prevention of hereditary disorders, and make your research easily accessible by your participation and cooperation.

In an approach to share your work related to biochemical genetics, clinical cytogenetics, clinical genetics, clinical molecular genetics, Chromosome abnormalities review, Single gene defects, gene related syndromes etc., SOJ Genetic Science welcomes papers from worldwide group of specialists for our special Issue “Genes and Medical conditions” covering recent advances in diagnosis, treatment, management of various diseases and ongoing research.

As we are in a step ahead to bring the *Current research on Genes & Medical Conditions* exploration to you and every other in an easy accessible way by your participation and cooperation.

Submissions

All kinds of papers are invited. Please refer [Author guidelines](#) before submission. Author benefits for these submissions will be found at [special issue page](#).

Use the online [Manuscript Tracking System](#) to submit your papers or e-mail it to gene@symbiosisonline.org

Submissions are open from January 26, 2015

Editorial Board Members

Samir A Farghaly
Cornell University, USA

Shufeng Zhou
University of South Florida, USA

Jenny Y Wang
University of New South Wales, Australia

Jean-Francois Picimbon
Shandong Academy of Agricultural Sciences, China
