

Special Issue on
“Tumor Immunology: Advances & Reviews”

Aims and Scope

[SOJ Immunology](#) is a peer reviewed open access journal, exclusively designed for the international Scientific community that addresses ongoing research on Immunology, which aims to provide a unique platform for publishing high quality research work. The journal provides current research information in basic and advanced aspects of the immune system, and host defense mechanisms.

It is a growing field of research that aims to discover innovative cancer immunotherapies to treat and retard progression of the disease. Immunotherapy intends to enhance immune responses that will effectively kill all tumor cells while leaving healthy tissue intact. significant progress has been made, and the development of improved methods for tumor antigen recognition, molecular and genetic manipulation of the immune system, and fundamental novel observations interested in Immunobiology have paved the way for further advances are now reaching clinically.

The objective of the special issue is to integrate the growing international community of researchers working on the topics like Tumor Immunology and Immunotherapy, T Cell Homeostasis as an Antitumor Strategy, Induction of Tumor Immunity, and Antitumor Immune Response.

Topics

This special issue deals with the topics of the following but not limited to

- Tumor Immunology and Immunotherapy
- T Cell Homeostasis as an Antitumor Strategy
- Induction of Tumor Immunity
- Tumor Immunogenicity
- Antitumor Immune Response
- Tumor-Targeted Antibody Therapy
- Immunomodulation by Tumors
- Suppressing Tumorigenic Inflammation
- Immune Checkpoints in Cancer Immunotherapy
- Regulation of Myeloid Cells by Tumors
- Determinants of Tumor Immunogenicity
- Antitumor Immunotherapy

Tumor-Derived Autophagosomes
Manipulation of the Tumor Microenvironment
Inflammation-Induced Tumorigenesis
Micro RNAs in Virus-Induced Tumorigenesis
Tumor Angiogenesis
Tumor-Propagating Cells
Tumor Stem Cells
Tumor Suppressor Genes
Mechanisms and Relevance to Tumor Immunity

Submissions

Authors are invited to submit articles which address the progress and current standing of Tumor Immunology: Advances & Reviews. Please refer [Author guidelines](#) before submission.

Author benefits for these submissions will be found at [Special issue page](#). Use the Online [Manuscript Tracking System](#) to submit your papers or e-mail it to immunology@symbiosisonline.org

Submissions are open from January 26, 2015

Editorial Board Members

Steve Fiering

Dartmouth Hitchcock Medical Center, USA

John Bright

Indiana University of Health, USA

Alaa Ahmed

Jazan University, Saudi Arabia

Joseph Chandler

Maine Biotechnology Services Inc, USA
