SOJ Immunology

Special Issue on
“Autoimmune Diseases”

Aims and Scope

[SOJ Immunology](#) is a peer reviewed open access journal, exclusively designed for the international Scientific community that addresses ongoing research on Immunology, which aims to provide a unique platform for publishing high quality research work. The journal provides current research information in basic and advanced aspects of an Autoimmune Diseases.

Autoimmune diseases occur from an abnormal immune response of the body against substances and tissues normally present in the body (autoimmunity.) This may be restricted to particular tissues or involve a particular certain organs in different places. A large number of autoimmune diseases are recognized. Understanding of the underlying pathophysiology of autoimmune diseases has been the application of genome wide association scans that have recognized a striking degree of genetic sharing among the autoimmune diseases.

The objective of the special issue is to integrate the growing international community of researchers working on the topic “Autoimmune Diseases”, which paves a way for publishing outcomes of recent research in Immunology.

Submissions

Authors are invited to submit articles which address the progress and current standing of Immunobiology of Transplantation. Please refer [Author guidelines](#) before submission.

Author benefits for these submissions will be found at [Special issue page](#). Use the Online [Manuscript Tracking System](#) to submit your papers or e-mail it to immunology@symbiosisonline.org

SOJ Immunology

Submissions are open from October 01, 2015
