

Nanoscience & Technology: Open Access

Special Issue on “Nanoparticles: Synthesis, Characterization & Applications”

[Nanoscience & Technology: open access](#) is a peer reviewed journal, solely designed for the worldwide scientific community that addresses current research on nanotechnology, which aims to provide an exclusive platform for publishing worthy research work. The journal aims to frame up an outstanding special issue on Nanoparticles: Synthesis, Characterization & Applications.

Nanoparticles constitute an important and technology intensive area of research and development in the rapidly increasing field of nanotechnology. Various methods for the synthesis of Nanoparticles have been developed. Nanoparticles characterization is needed to start understanding and control of synthesis and applications. We also encourage possible future applications of these systems which will bring the opportunity for new applications.

Our Journal of Nanoscience & Technology invites research from entire international community of researchers covering many topics like but not limited to Advancement of characterization techniques of nanoparticles, Synthesis of ultra small nanoparticles, Dendrimers as Drug Carriers etc. which paves a way for publishing outcomes of recent research trends and investigations in Nanoscience & Technology.

As we are in a step ahead to bring the Current research on *Nanoparticles: Synthesis, Characterization & Applications* exploration to you and every other in an easy accessible way by your participation and cooperation.

Submissions

Authors are invited to submit articles which address the progress and current standing of Nanoparticles: Synthesis, Characterization & Applications. Please refer [Author guidelines](#) before submission.

Author benefits for these submissions will be found at [Special issue page](#). Use the Online [Manuscript Tracking System](#) to submit your papers or e-mail it to nano@symbiosisonline.org

Submissions are open from January 26, 2015

Editorial Board Members

Richard J. Spontak
North Carolina State University, USA

Alice C Parker
University of Southern California, USA

Paul S. Ho
Catholic University, USA

Dimitra NS. Cullum
U.S. Army Research Laboratory, USA

Editorial Contact

Phillips White
