

Nanoscience & Technology: Open Access

Special Issue on “Food Safety and Applied Nutrition Nanotechnology”

[Nanoscience & Technology: Open Access](#) is a peer reviewed journal, solely designed for the worldwide scientific community that addresses current research on nanotechnology, which aims to provide an exclusive platform for publishing worthy research work. The journal aims to frame up an outstanding special issue on Food Safety and Applied Nutrition Nanotechnology.

With the advance of science and technology, Nanotechnology has been explored in a variety of products, both in food and their safety. Nanotechnology techniques are used during production, packaging of the food and safety. The goal of nanotechnology research is to explore opportunities to promote innovation using Nanomaterials to develop safe foods.

Our Journal of Nanoscience & Technology invites research from entire international community of researchers covering many topics like but not limited to implications for food safety and consumer health, Engineered Nanomaterials in food, Nanocoatings on food contact surfaces, Organic & Inorganic Nano-sized additives, etc. which paves a way for publishing outcomes of recent research trends and investigations in Nanoscience & Technology.

As we are in a step ahead to bring the Current research on *Food Safety and Applied Nutrition Nanotechnology* exploration to you and every other in an easy accessible way by your participation and cooperation.

Submissions

Authors are invited to submit articles which address the progress and current standing of Food Safety and Applied Nutrition Nanotechnology. Please refer [Author guidelines](#) before submission.

Author benefits for these submissions will be found at [Special issue page](#). Use the Online [Manuscript Tracking System](#) to submit your papers or e-mail it to nano@symbiosisonline.org

Submissions are open from January 26, 2015

Editorial Board Members

Richard J. Spontak
North Carolina State University, USA

Alice C Parker
University of Southern California, USA

Paul S. Ho
Catholic University, USA

Dimitra NS. Cullum
U.S. Army Research Laboratory, USA

Editorial Contact

Phillips White
Managing Editor
