

Nanoscience & Technology: Open Access

Special Issue on “Ethical and Social Implications of Nanotechnology”

[Nanoscience & Technology: Open Access](#) is a peer reviewed journal, solely designed for the worldwide scientific community that addresses current research on nanotechnology, which aims to provide an exclusive platform for publishing worthy research work. The journal aims to frame up an outstanding special issue on Ethical and Social Implications of Nanotechnology.

Nanotechnology will eventually impact every area of our world. The social impact of nanoscience is the potential benefits and challenges that the introduction of novel nanotechnological devices and materials may hold for society and human interaction. One way to ensure that social and ethical implications of nanotechnology research are taken into consideration early in research is to incorporate ethical concepts.

Our Journal of Nanoscience & Technology invites research from international community of researchers covering various topics like but not limited to Implications in Medical technologies, Intellectual property issues, Global challenges and globalization of bioethics, Upstream Ethics in Nanomedicine, Nanoethics in a nanolab, etc. This brings a way for publishing outcomes of recent research trends and investigations in Nanoscience & Technology.

As we are in a step ahead to bring the Current research on *Ethical and Social Implications of Nanotechnology* exploration to you and every other in an easy accessible way by your participation and cooperation.

Submissions

Authors are invited to submit articles which address the progress and current standing of Ethical and Social Implications of Nanotechnology. Please refer [Author guidelines](#) before submission.

Author benefits for these submissions will be found at [Special issue page](#). Use the Online [Manuscript Tracking System](#) to submit your papers or e-mail it to nano@symbiosisonline.org

Submissions are open from January 26, 2015

Editorial Board Members

Richard J. Spontak
North Carolina State University, USA

Alice C Parker
University of Southern California, USA

Paul S. Ho
Catholic University, USA

Dimitra NS. Cullum
U.S. Army Research Laboratory, USA

Editorial Contact

Phillips White
