

Nanoscience & Technology: Open Access

Special Issue on “Nanoelectronic Devices”

Aims and Scope

[Nanoscience & Technology: open access](#) is a peer reviewed journal, solely designed for the worldwide scientific community that addresses current research on nanotechnology, which aims to provide an exclusive platform for publishing worthy research work. The journal aims to frame up an outstanding special issue on Nanoelectronic Devices.

Nanoelectronics, means use of nanotechnology in electronic devices. The term covers a diverse set of devices and materials, with the regular characteristic that they are so small that inter-atomic interactions and quantum mechanical properties need to be studied extensively. Nanoelectronic Devices focuses on the future direction of semiconductor and emerging nanoscale device technology. The dimensional scaling of CMOS approaches its limits, alternate information processing devices and microarchitectures are being explored to continue increasing functionality at decreasing cost into the indefinite future.

NSTOA invites papers from entire the worldwide community of scientists covering many topics on Nanoelectronic Devices, which paves a way for publishing outcomes of recent research in Nanoscience & technology.

As, we are in a step ahead to bring the current research on Nanoelectronic Devices exploration to you and every other in an easy accessible way by your participation and cooperation.

Submissions

Authors are invited to submit articles which address the progress and current standing of Nanoelectronic Devices. Please refer [Author guidelines](#) before submission.

Author benefits for these submissions will be found at [Special issue page](#). Manuscript should be submitted [Here](#) or e-mail it to nano@symbiosisonline.org

Nanoscience & Technology: Open Access

Submissions are open from October 01, 2015

Editorial Board Members

Ying Feng
The University of Alabama, USA

Alice C Parker
University of Southern California, USA

Paul S. Ho
Catholic University, USA

Dimitra NS. Cullum
U.S. Army Research Laboratory, USA

Editorial Contact

Ellen Spencer
Managing Editor
