

Nanoscience & Technology: Open Access

Special Issue on “Nanomaterials: Characterization for Morphological, Physical and Chemical Parameters”

Aims and Scope

[Nanoscience & Technology: open access](#) is a peer reviewed journal, solely designed for the worldwide scientific community that addresses current research on nanotechnology, which aims to provide an exclusive platform for publishing worthy research work. The journal aims to frame up an outstanding special issue on Nanomaterials: Characterization for Morphological, Physical and Chemical Parameters.

Nanoscience and technology has been made in the past few years' recognition to the enhanced availability of sophisticated morphological, physical and chemical methods to characterize nanomaterials. These techniques include electron microscopy and scanning probe microscopy, including standard techniques such as X-ray and neutron diffraction, X-ray scattering and various spectroscopy. Characterization methods are most widely used in Characterizing Nanomaterials. Characterization of nanomaterials includes the determination not only of size and shape, but also of the atomic and electronic structures and other important properties.

NSTOA invites papers from entire the worldwide community of scientists covering many topics on Nanomaterials: Characterization for Morphological, Physical and Chemical Parameters, which paves a way for publishing outcomes of recent research in nanotechnology.

As, we are in a step ahead to bring the current research on Nanomaterials: Characterization for Morphological, Physical and Chemical Parameters exploration to you and every other in an easy accessible way by your participation and cooperation.

Submissions

Authors are invited to submit articles which address the progress and current standing of Nanomaterials: Characterization for Morphological, Physical and Chemical Parameters. Please refer [Author guidelines](#) before submission.

Author benefits for these submissions will be found at [Special issue page](#). Manuscript should be submitted [Here](#) or e-mail it to nano@symbiosisonline.org

Nanoscience & Technology: Open Access

Submissions are open from October 01, 2015

Editorial Board Members

Balu Ranganathan
Palms Connect LLC, USA

Alice C Parker
University of Southern California, USA

Paul S. Ho
Catholic University, USA

Dimitra NS. Cullum
U.S. Army Research Laboratory, USA
