

# Nanoscience & Technology: Open Access

## Special Issue on “Nanomaterial Composites”

### Aims and Scope

[Nanoscience & Technology: open access](#) is a peer reviewed journal, exclusively designed for the worldwide scientific community that addresses current research on nanotechnology, which aims to provide an exclusive platform for publishing worthy research work. The journal aims to frame up an excellent special issue on Nanomaterial Composites.

Nanomaterial composites which are mostly used in applications like medical devices, food packaging and automotive parts. Manufacturing operations rely on the improvement of these materials in order to decrease manufacturing costs, improve existing products, and develop novel products and technologies. nanomaterial composite systems is necessary in order to use them in organic optoelectronic devices also.

NSTOA invites papers from entire the worldwide community of scientists covering many topics on Nanomaterial Composites, which paves a way for publishing outcomes of recent research in Nanoscience & technology.

As, we are in a step ahead to bring the current research on Nanomaterial Composites exploration to you and every other in an easy accessible way by your participation and cooperation.

### Submissions

Authors are invited to submit articles which address the progress and current standing of Nanomaterial Composites. Please refer [Author guidelines](#) before submission.

Author benefits for these submissions will be found at [Special issue page](#). Manuscript should be submitted [Here](#) or e-mail it to [nano@symbiosisonline.org](mailto:nano@symbiosisonline.org)

Submissions are open from October 01, 2015

## Editorial Board Members

Ying Feng  
The University of Alabama, USA

Alice C Parker  
University of Southern California, USA

Paul S. Ho  
Catholic University, USA

Dimitra NS. Cullum  
U.S. Army Research Laboratory, USA

## Editorial Contact

Ellen Spencer  
Managing Editor  
Nanoscience & Technology: Open Access
