

Nanoscience & Technology: Open Access

Special Issue on “Thin Film Nanotechnology & Applications”

Aims and Scope

[Nanoscience & Technology: open access](#) is a peer reviewed journal, solely designed for the worldwide scientific community that addresses current research on nanotechnology, which aims to provide an exclusive platform for publishing worthy research work. The journal aims to frame up an outstanding special issue on Thin Film Nanotechnology & Applications.

A thin film is a layer of material ranging from fractions of a nanometer to micrometers in thickness. Thin films are created through a process called “deposition.” Deposition is a thin film coating process, which is achieved by modifying the four states of matter, solid, liquid, vapor and plasma. Thin films are ubiquitous. Some applications benefiting from thin film technology are electronic semiconductor devices. This includes integrated circuit chips, micro-fabricated mechanisms, micro-electromechanical systems (MEMS), micro-electronic optical systems, as well as light-emitting diodes (LEDs). Other mainstream applications include optical coatings, photovoltaic solar cells, and thin film batteries.

NSTOA invites papers from entire the worldwide community of scientists covering many topics on thin film nanotechnology and applications, which paves a way for publishing outcomes of recent research in thin film nanotechnology & Applications.

As, we are in a step ahead to bring the current research on *Thin Film Nanotechnology & Applications* exploration to you and every other in an easy accessible way by your participation and cooperation..

Submissions

Authors are invited to submit articles which address the progress and current standing of Thin Film Nanotechnology & Applications. Please refer [Author guidelines](#) before submission.

Author benefits for these submissions will be found at [Special issue page](#). Manuscript should be submitted [Here](#) or e-mail it to nano@symbiosisonline.org

Nanoscience & Technology: Open Access

Submissions are open from October 01, 2015

Editorial Board Members

Seyed Ali Johari

University of Kurdistan, Iran

Alice C Parker

University of Southern California, USA

Paul S. Ho

Catholic University, USA

Dimitra NS. Cullum

U.S. Army Research Laboratory, USA

Editorial Contact

Ellen Spencer

Managing Editor
