Aims and Scope:

SOJ Neurology is an Open Access Publication that enlightens and empowers the neurology research community by providing an insight on breakthrough discoveries in basic and clinical neurology research.

Cephalalgia is a group of disorders having a prominent symptom as pain in head or neck region. It is classified as primary and secondary headache depending on the underlying cause.

SOJ Neurology invites papers from the global community of researchers covering topics related to pathology, diagnosis, treatment, experimental studies which paves a way for publishing outcomes of recent research trends and investigations in Cephalalgia.

Topics:

The scope of the special issue includes but not limited to the following topics

- Migraine headaches
- Tension headaches
- Trigeminal autonomic Cephalalgia
- Headache attributed to trauma or injury to the head and/or neck
- Headache attributed to cranial or cervical vascular disorder
- Headache attributed to non-vascular intracranial disorder
- Headache attributed to a substance or its withdrawal
- Headache attributed to infection
- Headache attributed to disorder of homoeostasis
- Headache or facial pain attributed to disorder of the cranium, facial or cervical structures
- Headache attributed to psychiatric disorder
