Special Issue on “Food Safety & Hygiene”

Aims and Scope

[Journal of Nutritional Health & Food Science](#) is a peer reviewed open access journal, exclusively designed for the international Scientific community that addresses ongoing research on Nutritional Health & Food Science, which aims to provide a unique platform for publishing high quality research work. The journal aims to frame up an outstanding special issue on Food Safety & Hygiene.

Food safety is a scientific discipline describing management, preparation, and storage of food in ways that avoid food borne ailment. This includes a number of routines that should be followed to avoid potentially severe health hazard. They are based on a defensive approach to the incidence of food-borne illness and are designed produce food that is safe to eat. The Food Safety Standards outline the obligations of food businesses in relation to food handling, personal health and hygiene, skills and awareness requirements for food handlers, cleaning, sanitizing and maintenance, provision of thermometers, pest control, design, and construction and fit-out of premises.

The objective of the special issue is to integrate the growing international community of researchers working on the topics like Food Storage, Food borne Illness, Food Labeling, Food Additives and Pesticide Residues.
