Aim and Scope

Obesity & Control therapies: Open Access is a Scientific Journal dedicated to addressing the challenges in obesity. This Peer-Reviewed journal publishes research conducted in the field of obesity management. OCTOA is an Open Access Publication that provides valuable information on obesity and its consequences on health & physical well being.

Obesity, also being a "world-wide epidemic problem" is associated with increased risks of Cardiovascular Complications such as coronary artery disease, heart failure and atrial fibrillation. According to the American Diabetes Association, more than 65% of deaths are due to cardiovascular complications. As there are number of remaining scientific questions need to be addressed to have a more complete understanding of the relationship between obesity and CVD.

As we are in a step ahead to bring the Current Advancements in Obesity and Cardiovascular Complications to you, every other in an easy accessible way by your participation and co-operation.
