

Palliative Medicine & Care: Open Access

Special Issue on “Palliative Care Nursing”

[Palliative Medicine & Care: Open Access](#) is an Open Access, Peer-Reviewed Journal that covers, all the aspects related to taking care of the terminally ill patients, like symptoms management, pain reduction and providing comfort. The goal of palliative care is to soothe the pain of the patients; as providing a complete cure, or eradicating the symptoms is often not possible, due to the critical stage of their illness.

Palliative Care Nursing deals with the physical, emotional and spiritual concerns of a person experiencing a life-limiting illness. This is accomplished in collaboration with a collaborative team of doctors, nurses and the family members. The special issue on palliative care nursing mainly focuses on the issues faced by the nurses and the practice in symptom management while providing palliative care to a person with life-limiting illness.

Our Journal of **Palliative Medicine and Care** invites papers from throughout the global community of researchers covering many topics which paves a way for publishing outcomes of recent research trends and investigations in Palliative Care Nursing.

As we are a step ahead to bring the *Current research on Palliative Care Nursing* exploration to you and every other in an easy accessible way by your participation and cooperation.

Submissions

All kinds of papers are invited. Please refer [Author guidelines](#) before submission. Author benefits for these submissions will be found at [special issue page](#).

Use the online [Manuscript Tracking System](#) to submit your papers or e-mail it to pmc@symbiosisonline.org

Submissions are open from January 26, 2015
