

# Palliative Medicine & Care: Open Access

Special Issue on  
“Palliative Sedation”

[Palliative Medicine & Care: Open Access](#) is an Open Access, Peer-Reviewed Journal that covers, all the aspects related to taking care of the terminally ill patients, like symptoms management, pain reduction and providing comfort. The goal of palliative care is to soothe the pain of the patients; as providing a complete cure, or eradicating the symptoms is often not possible, due to the critical stage of their illness.

Palliative sedation is reducing the uncontrollable symptoms of pain and suffering by providing a sedative drug to relieve the distress in an ill person. Palliative Sedation only reduces the symptoms and does not shorten the life of a person. The special issue mainly focuses on the ethics followed, issues controversies and challenges faced in palliative sedation.

Our Journal of Palliative Medicine & Care invites papers from throughout the global community of researchers covering many topics which paves a way for publishing outcomes of recent research trends and investigations in Palliative sedation.

As we are a step ahead to bring the *Current research on Palliative sedation* exploration to you and every other in an easy accessible way by your participation and cooperation.

## Submissions

All kinds of papers are invited. Please refer [Author guidelines](#) before submission. Author benefits for these submissions will be found at [special issue page](#).

Use the online [Manuscript Tracking System](#) to submit your papers or e-mail it to [pmc@symbiosisonline.org](mailto:pmc@symbiosisonline.org)

**Submissions are open from January 26, 2015**
