

SOJ Pharmacy & Pharmaceutical Sciences

Special Issue on “Pharmacogenetics”

[SOJ Pharmacy & Pharmaceutical Sciences](#) is an Open Access Publication that aims to publish Scholarly Articles pertaining to research of drugs and drug products with strong emphasis on originality and scientific quality.

Pharmacogenetics is often used as an acronym with pharmacogenomics. The study of pharmacogenetics is involved in predicting drug-drug interactions and having a lot of advantages with molecular biology. The main technological advancements of pharmacogenetics happened in polymorphism near a human interferon gene and integrating with the health care system. Regarding the issue of ethics and social acceptance, it had been always among the controversial topics.

In an approach to share your work related to the field of Pharmacogenetics, *SOJ Pharmacy & Pharmaceutical Sciences* welcomes papers from worldwide group of specialists; covering recent advances & perspectives in Pharmacogenetics, ongoing research.

With this initiative, we intend to bring-out **the research advances in Pharmacogenetics**, and make them easily accessible by your participation and cooperation.

Submissions

All kinds of papers are invited. Please refer [Author guidelines](#) before submission. Author benefits for these submissions will be found at [special issue page](#).

Use the online [Manuscript Tracking System](#) to submit your papers or e-mail it to pharma@symbiosisonline.org

Submissions are open from July 06, 2015
