Special Issue on
“Innovations in Addressing Mental Health Care Disparities”

Aims and Scope

SOJ Psychology is a peer reviewed open access journal, exclusively designed for the international Scientific community that addresses ongoing research on Psychology, which aims to provide a unique platform for publishing high quality research work. The journal provides current research information in basic and advanced aspects Innovations in Addressing Mental Health Care Disparities.

The requirement of mental health services within primary health care settings can be considered as a way to try to address disparities that ethnic minorities experience respective to mental health assessment, diagnosis, and treatment. The primary care setting provides a chance for patients with comprehensive physical, mental and behavioral health problems to illuminate their concerns.

The objective of the special issue is to integrate the growing international community of researchers working on the topics like Uptake of Depression Treatment, Working Together to Solve Disparities, Addressing Disparities in Mental Health Agencies, Culturally Centered Integrative Care and Collaborative Action on Child Equity.
