Aims and Scope

SOJ Veterinary Sciences is a peer-reviewed journal, solely designed for the worldwide scientific community that addresses current research on Veterinary Science, which aims to provide an exclusive platform for publishing worthy research work. The journal aims to frame up an outstanding special issue on Advances in Veterinary Diagnostics.

Veterinary Diagnostics is a new breed of technology that sees infection long before symptoms occur. It's a brand new way to detect diseases, providing more rapid results than culture. It is committed to improve the profitability of livestock production and providing livestock producers with diagnostics that allows more precise care of animals. So, they survive healthier, more productive lives.

SOJ Veterinary Sciences invites papers from entire the worldwide community of scientists covering all topics on veterinary diagnostics, etc. which paves a way for publishing outcomes of recent research trends and investigations in Veterinary Science.

As we are in a step ahead to bring the current research on Advances in Veterinary Diagnostics exploration to you and every other in an easy accessible way by your participation and cooperation.

Submissions

Authors are invited to submit articles which address the progress and current standing of Advances in Veterinary Diagnostics. Please refer Author guidelines before submission.

Author benefits for these submissions will be found at Special issue page. Use the Online Manuscript Tracking System to submit your papers or e-mail it to veterinary@symbiosisonline.org
Submissions are open from October 01, 2015
