Journal of Virology & Retrovirology is an Open Access Publication that enlightens and empowers the Virology research community by providing an insight on breakthrough discoveries in basic and clinical virology research.

Viral diseases have a huge impact on both human and animal health worldwide. Genomic technologies are providing the researchers a wonderful capability to study the viruses at a genetic level that cause disease and their interactions with infected hosts. Viral Genomics emerged as an excellent field that helps to study the viruses in detail.

Our Journal of Virology & Retrovirology invites papers from throughout the global community of researchers covering many topics relates to basic science, biology, diagnosis, treatment, experimental studies, pathology so on, which paves a way for publishing outcomes of recent research trends and investigations in Viral Genomics.

As we are in a step ahead to bring the Current research on Viral Genomics exploration to you and every other in an easy accessible way by your participation and cooperation.

Submissions

All kinds of papers are invited. Please refer Author guidelines before submission. Author benefits for these submissions will be found at special issue page.

Use the online Manuscript Tracking System to submit your papers or e-mail it to virology@symbiosisonline.org

Submissions are open from January 26, 2015

Editorial Board Members

Gurudutt Pendyala  
University of Nebraska Medical Center, USA

Giorgio Palu  
European Society for Virology, Italy

Michael Themis  
Brunel University, UK

Tetsuya Uchida  
Saitama Medical University, Japan
