Journal of Virology & Retrovirology is an Open Access Publication that enlightens and empowers the Virology research community by providing an insight on breakthrough discoveries in basic and clinical virology research.

**Viral hepatitis** is liver inflammation due to a viral infection. Hepatitis virus is the most common cause of the disease. Chronic hepatitis B or C can often lead to more serious health problems such as cirrhosis and liver cancer. In the US, 1.6% of the total population is infected with viral hepatitis.

Our Journal of Virology & Retrovirology invites papers from throughout the global community of researchers covering many topics relates to basic science, biology, diagnosis, treatment, experimental studies, pathology so on, which paves a way for publishing outcomes of recent research trends and investigations in Viral Hepatitis.

As we are in a step ahead to bring the Current research on *Viral Hepatitis* exploration to you and every other in an easy accessible way by your participation and cooperation.

**Submissions**

All kinds of papers are invited. Please refer [Author guidelines](#) before submission. Author benefits for these submissions will be found at [special issue page](#).

Use the online [Manuscript Tracking System](#) to submit your papers or e-mail it to virology@symbiosisonline.org

**Submissions are open from January 26, 2015**

**Editorial Board Members**

**Gurudutt Pendyala**  
University of Nebraska Medical Center, USA

**Giorgio Palu**  
European Society for Virology, Italy

**Michael Themis**  
Brunel University, UK

**Tetsuya Uchida**  
Saitama Medical University, Japan
